

SERVICE MODULES:

Flexibility throughout the returns process. Depending on the complexity of your current and future setup and goals, we will design the proper solution, adding services when and where required.

COMPOSE YOUR OWN
SERVICES PORTFOLIO

HOW IT WORKS

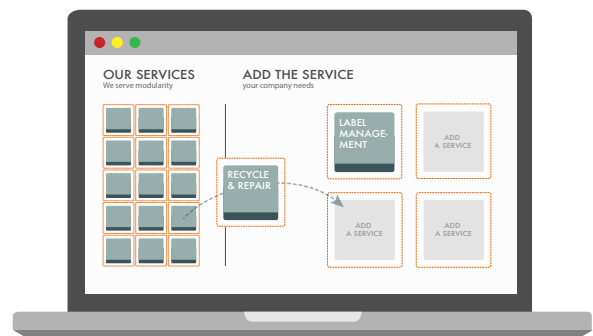

We provide high quality services like repair and refurbishment, cleaning and re-packaging, data wiping, product auditing and product testing for small domestic appliances, electronics, electrical products and large goods. A range of our offerings:

BENEFITS & IMPACT

Different return reasons require different return services. Together we determine what works best for your specific needs. During this process, we will combine, add and change services from our services menu until we established the perfect service for you.

New services become available as we are continuously developing, meaning you can always add or remove a service.
