

CYCLEON'S mission is to improve the environmental impact of returns

We'll achieve this by...

Network

Reducing CO2e emissions

Using sustainable materials

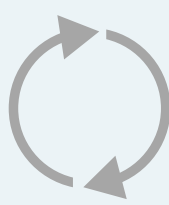

Using clean energy

Services

Promoting eco-friendly solutions

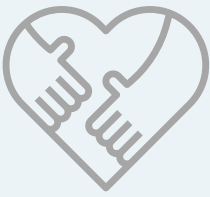

Recovering resources

Applying smart routing

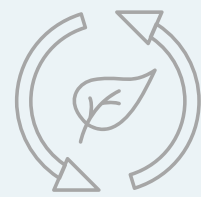

Company

Supporting local communities

Promoting social entrepreneurship

Ensuring sustainability awareness

Cycleon will ensure that an eco-friendly return option is available in every priority country in 2021.

We are committed to being the front-runner of reducing the environmental footprint of returns.

We already embrace an array of sustainable measures and engage in the circular economy.

OUR SUPPLIER NETWORK

We work with numerous partners who share our commitment to promote sustainable practices through innovation and local solutions.

Our network offers*

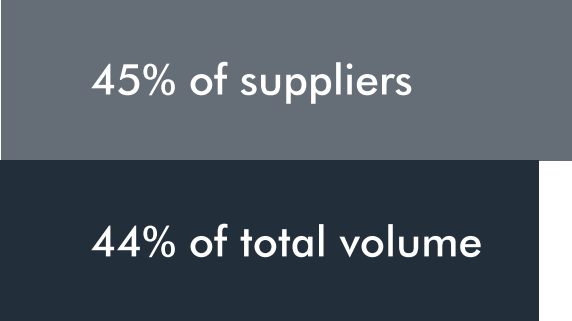

CO2e neutral services

Carbon-free city logistics

Low-emission vehicles

ISO14001 certified partners

• These figures do not represent our complete supplier network, but we are incorporating more on an ongoing basis.
